Premium Grain Horse Mix

This product is specially formulated using a mixture of grains to balance your horse's dietary requirements. This supplementary feed is highly palatable and your horse will not only love the feed but will also perform to their peak and look just as good. The major percentage of this feed is grown on the Eyre Peninsula, South Australia.

Thoroughbred trainers Love our mix. This is ideal for horses in work to maintain energy and condition. A simple blend of cracked grains that are mollasified with no added moisture. This means the user gets more solid value in their purchase. Only top grade grains are used in our mix that is proven over and over to enhance a horses performance.
