

Calf Pellets

An ideal follow-on from cow's colostrum milk and/or substitute milk. Calf pellets gradually wean calves onto solid feed and give them an excellent start for prime beef production.

Feeding Instructions

Introduce from 8 weeks and feed at 0.5kg per day increasing to ad lib over a period of 2 weeks. Roughage such as hay or cereal straw should be fed ad lib and gradually reduced to 10% of total dry matter intake.

Ingredients

Barley 13.5%, Lupins 30%, Wheat 13%, Mill Run, Bran, Palabind Molasses, Sodium Bentonite, Stock Lime, Salt, Dicalcium Phosphate, Magnesium Oxide, HP Dairy Premix, Rumensin 10% Premix.
